

BY I-NETWORK

This year's annual sector learning events were combined into one event that brought together all the IICD implementing partners in the health and education sectors in Uganda. The objectives of the joint annual learning event were;

- Joint review of the second year of the social innovation process
- Reflect upon existing and identify and prioritize needed capacities for the individual organizations
- Relate with other actors within and outside this programme for advice, sharing and peer support
- Define how individual organizations will address sustainability issues for the project

In attendance were representatives from implementing organizations, IICD country manager, local consultants, and a team from text to change.
